## III International Summer School «Physics and technologies in life sciences»

---

Dear Colleagues!

We kindly inform you that the Institute of Engineering Physics for Biomedicine of MEPhI (PhysBio Institute of MEPhI) together with Institute of Physics & Mathematics of Astrakhan State University hold the 3<sup>rd</sup> International Summer School «Physics and technologies in life sciences».

The Summer School will be held in MEPhI (Moscow, Russia) and ASU (Astrakhan, Russia) July 8-20, 2019.

Leading Russian and international scientists will give lecture courses on the School programs. Participants of the School will have an opportunity to learn about the latest achievements of science in Biomedicine.

Students of different levels, young scientists and everyone wishing to expand their knowledge in these fields are invited to take part in the School.

The **scientific program** of the Summer School provides 2 educational modules:

Date	Module
July 8-13	Innovative technologies of nuclear medicine and radiotherapy (MEPhI, Moscow, Russia)
July 15-20	Modern biomedicine technologies (ASU, Astrakhan, Russia)

- Lectures of leading specialists from great scientific and educational centers of Russia and foreign countries;
- Excursions to the laboratories of MEPhI and partner organizations

Participants who completed the course on one of the School's modules and passed the exam on it (essay on a pre-selected topic) will receive certificates confirming mastering of one of the program's courses of lectures. All participants can complete one or two educational modules.
